### **House Votes to Prevent Fraudulent Health Insurance Subsidy Payments**

Earlier this summer, the U.S. Department of Health and Human Services released hundreds of pages of regulations to implement the 2010 health care law. Included in the newly released regulations was an announcement that the federal government would not verify that individuals seeking subsidies to purchase health insurance through the law's exchanges are qualified to receive such assistance. This week, the House passed H.R. 2775, the No Subsidies Without Verification Act, which would require that accurate verification systems be in place before subsidies are disbursed. I supported this legislation in order to ensure that only those individuals who are actually eligible to receive assistance do so and prevent fraud and abuse of taxpayer dollars.

### **Internship Opportunities in Rep. Miller's District Office**

I am pleased to announce that my office is currently accepting applications from high school and college students interested in a Fall or Winter internship with my District Office in Rancho Cucamonga. A Congressional internship offers students the opportunity to gain valuable knowledge of the operations of the federal government, constituent services and intergovernmental relations. Responsibilities include front desk reception, providing phone support, constituent services, processing mail, conducting research and working with the staff on special projects. Consideration will be given to reliable, motivated individuals with excellent written and verbal communication skills. A strong work ethic and ability to handle multiple tasks are essential qualities. For more information, please contact Suzette Swallow at (909) 980-1492.

### **September and October Mobile District Office Information**
